

PUMP UP THE VOLUME ON

BIG DATA

6 KEY TRAITS OF AN EFFECTIVE DATA DELIVERY SOLUTION

High Performance

- Timely data delivery
- In-memory stream processing
- Minimal impact on source system performance

Fully Automated

- Optimizes IT productivity and efficiency
- Eliminates the need for Professional Services
- Quick time to value

Easy to Use

- Intuitive drag-and-drop user interface
- Click-2-Replicate
- Minimal training

Low Maintenance

- Monitoring and performance dashboards
- Zero-footprint architecture
- Proactive notifications and alerts

Enterprise Ready

- Supports heterogeneous and homogeneous environments
- Multi-threaded, multi-tasking, multi-server
- Fault tolerant

Responsive Service

- Always available
- Always responsive
- Expertly trained
